Agencies with a colored box are receiving a community impact grant for that area or a basic needs grant, in addition to donor designations. Grant recipients are chosen through a competitive grant process (every three years for impact grants and every year for basic needs grants). Dollars designated to agencies are separate and in addition to any grant dollars an agency receives from United Way.

Basic Needs

- **Basic Needs:** Assistance with the basic needs of the most vulnerable. Basic needs is the foundation of United Way's work.

Community Impact Areas

- **Early Education:** School readiness to help ensure more children have the skills needed to be successful in school.
- **On-Grade Achievement:** Helping students stay on track in reading and math to meet milestones that are critical to on-time graduation.
- **Financial Stability:** Ensuring more individuals and families have access to job training that leads to a family-sustaining wage. Teaching more teens and adults how to balance income and expenses.
