Agencies with a colored box are receiving a community impact grant for that area or a basic needs grant, in addition to donor designations. Grant recipients are chosen through a competitive grant process (every three years for impact grants and every year for basic needs grants). Designated dollars are separate and in addition to any grant dollars an agency receives from United Way.

Basic Needs

- 
Basic Needs: Assistance with the basic needs of the most vulnerable. Basic needs is the foundation of United Way's work.

Community Impact Areas

- 
Early Education: School readiness to help ensure more children have the skills needed to be successful in school.
- 
On-Grade Achievement: Helping students stay on track in reading and math to meet critical milestone ensuring on time graduation.
- 
Financial Stability: Ensuring more individuals and families have access to job training to secure a family-sustaining wage; and to learn about balancing income and expenses.

Increase Your Impact with Designation PLUS

Looking to maximize your impact? In addition to designating a gift to your favorite agency, consider adding (if you haven't already) a designation to the Impact Area associated with that agency. For instance, in addition to a \$50 gift to the Topeka Rescue Mission, consider a \$50 designation to UWGT's Financial Stability Impact Area. This ensures that UWGT can provide strategic collaboration and resources to support the Rescue Mission and other impact partners in their work.
