YWCA of Northeast Kansas   	SN, JA	155

*Agencies with a colored box are receiving a community impact grant for that area or a basic needs grant, in addition to donor designations. Grant recipients are chosen through a competitive grant process (every three years for impact grants and every year for basic needs grants). Designated dollars are separate and in addition to any grant dollars an agency receives from United Way.*

### Basic Needs

-  **Basic Needs:** Providing crisis assistance to help stabilize individuals and families. Basic Needs support is the foundation of United Way's work.

### Community Impact Areas

-  **Early Education:** Giving our youngest learners the skills they need to succeed from the first day of kindergarten.
-  **On-Grade Achievement:** Helping students meet critical milestones in reading and math and supporting their families to maximize their chances of graduating on time.
-  **Financial Stability:** Improving access to jobs with a family-sustaining wage through education, job training, and financial literacy skills.

## Increase Your Impact with Designation PLUS

Looking to maximize your impact? In addition to designating a gift to your favorite agency, consider adding (if you haven't already) a designation to the Impact Area associated with that agency (or the Community Impact Fund). For instance, in addition to a \$50 gift to the Topeka Rescue Mission, consider a \$50 designation to UWGT's Financial Stability Impact Area. This ensures that UWGT can provide the strategic collaboration and resources to support the Rescue Mission in their work.
